

HUT300 - INDUSTRIAL ECONOMICS & FOREIGN TRADE

IMPORTANT TOPICS ANALYSIS

MODULE 1: BASIC ECONOMIC CONCEPTS

Topic	Frequency	Marks Coverage	Weighted Score
Production Possibility Curve	5	3M, 7M, 14M	10
Price Elasticity of Demand	5	7M, 10M, 14M	9
Deadweight Loss & Taxation	5	7M, 14M	8
Law of Diminishing Marginal Utility	3	7M, 14M	7
Joint Stock Company	3	7M, 10M	6
Cross Elasticity of Demand	2	7M, 14M	5
Law of Demand & Supply	3	3M, 14M	4
Basic Economic Problems	3	3M	3
Opportunity Cost	2	3M, 7M	3

Key Focus Area: PPC, Price Elasticity of Demand and Deadweight Loss are the most frequently tested topics in Module 1, appearing across different mark categories.

MODULE 2: PRODUCTION, COST AND BREAK-EVEN ANALYSIS

Topic	Frequency	Marks Coverage	Weighted Score
Break-Even Analysis	5	3M, 7M, 10M, 14M	10
Law of Variable Proportions	4	7M, 14M	8
Isoquants & Producer's Equilibrium	5	3M, 7M, 14M	9
Cost Concepts & Cost Functions	4	3M, 7M, 14M	8
Returns to Scale	2	3M, 14M	5
Production Functions	2	3M, 14M	5
Fixed vs Variable Costs	2	3M	2
Shutdown Point	2	3M, 7M	4

Key Focus Area: Break-Even Analysis and Isoquants are the most crucial topics in Module 2, followed by Cost Concepts and Law of Variable Proportions.

MODULE 3: MARKET STRUCTURES AND PRICING

Topic	Frequency	Marks Coverage	Weighted Score
Comparison of Market Structures	5	7M, 10M, 14M	9
Monopolistic Competition	5	3M, 7M, 14M	9
Pricing Methods	5	3M, 7M, 14M	8
Oligopoly & Kinked Demand Curve	6	3M, 7M, 14M	10
Perfect Competition	4	3M, 7M, 10M	7
Price Skimming	3	3M, 7M	4
Non-Price Competition	1	7M	2

Key Focus Area: Oligopoly (including Kinked Demand Curve), Comparison of Market Structures, and Monopolistic Competition are the most important topics in Module 3.

MODULE 4: MACROECONOMICS AND FINANCIAL MARKETS

Topic	Frequency	Marks Coverage	Weighted Score
Circular Flow of Income	4	7M, 10M	8
National Income Calculation	5	3M, 7M, 14M	9
Inflation Control Measures	5	3M, 7M, 10M, 14M	10
Money Market & Capital Market	4	3M, 7M, 14M	7
Stock Market (NIFTY, SENSEX)	2	3M, 7M	4
Business Financing	2	7M	3
Monetary Policy Instruments	3	3M, 7M, 14M	6

Key Focus Area: Inflation Control Measures, National Income Calculation, and Circular Flow of Income are highly important topics in Module 4.

MODULE 5: INTERNATIONAL TRADE

Topic	Frequency	Marks Coverage	Weighted Score
Theories of International Trade	6	3M, 7M, 10M, 14M	10
Balance of Payments	5	3M, 7M, 10M	9
Free Trade vs Protectionism	6	3M, 7M, 14M	9
Devaluation & Exchange Rate	5	3M, 7M, 14M	8
Tariffs & Non-Tariff Barriers	3	7M, 14M	6
Advantages & Disadvantages of Foreign Trade	3	3M, 7M, 14M	5

Key Focus Area: Theories of International Trade (Absolute Advantage, Comparative Advantage, Heckscher-Ohlin), Balance of Payments, and Free Trade vs Protectionism are the most critical topics in Module 5.

OVERALL EXAM STRATEGY

Based on the analysis of the question bank, students should prioritize their preparation according to the following strategy:

- 1. **First Priority** (Topics with weighted score 8-10)
 - These topics appear frequently across different mark categories and should be mastered thoroughly.
 - Examples: PPC, Break-Even Analysis, Oligopoly, Inflation Control, Theories of International Trade
- 2. **Second Priority** (Topics with weighted score 5-7)
 - These topics appear regularly but may not span all mark categories.
 - Examples: Cost Concepts, Perfect Competition, Monetary Policy, Tariffs
- 3. **Third Priority** (Topics with weighted score below 5)
 - While still important, these topics appear less frequently or only in lower mark questions.
 - However, they should not be ignored as they often form the foundation for understanding higher-priority topics.

TIME ALLOCATION SUGGESTION

Module	Suggested Study Time Allocation
Module 1	20%
Module 2	20%
Module 3	20%
Module 4	20%
Module 5	20%

Each module appears to have equal importance in the exam with relatively consistent distribution of questions and marks. Focus on the high-weighted topics within each module for optimal preparation.
